Editor's Note

Since 1995, the China Council for the Promotion of International Trade (CCPIT) has compiled and printed the Chinese and English bilingual annual report of Fairs and Exhibitions in China (hereinafter referred to as "the book") every year, and published information about major economic and trade exhibitions to be held in China that year, providing a significant reference for enterprises to participate in the exhibitions or expos held in China and have been welcomed by embassies, consulates, trade associations and enterprises in China throughout the years.

The Fairs and Exhibitions in China 2021 is coordinated by the Department of Trade and Investment Promotion of CCPIT. The CCPIT Information Center (China Trade Promotion Information Technology Co., Ltd.) is responsible for the compilation of the Fairs and Exhibitions in China 2021.

To help readers better understand and use the book, please follow the details below.

I. Scope of Fair and Exhibitions Data

The term "fair" and "exhibition" in this book are limited to economic and trade exhibitions, excluding public performances and events in the fields of culture, arts, festivals, talents and others.

Fairs and Exhibitions in China 2021 has collected information about 1500 valid economic and trade projects, which will take place in about 100 cities across 34 provinces, autonomous regions and municipalities as well as the Hong Kong and Macao Special Administrative Regions of China in 2021 (the deadline for information collections is 13th January 2021). Project data include the name, time and venue, host & organizer, display content and contact information of the exhibitions.

Readers can search information by the host city or by the industry.

II. Source of Data

The acquisition of data in this book mainly comes from CCPIT local sub-councils and industrial sub-councils, exhibition hosts and organizers, exhibition halls and official media information (online and printed media)

III. Limitation and Accuracy

Affected by the epidemic situation of Novel Coronavirus Pneumonia (COVID-19), the case for exhibitions in 2021 is that a majority of them appear to be either canceled or postponed. By the time for the book to be published, for some exhibitions held for many years, whether they will be held or not has yet to be determined. Although the Editorial Board has conducted cross check of information about exhibition projects through various means, such as telephone and e-mail, but there may still be adjustments to the changes of information such as date and venue during the preparation of exhibitions, and even the alteration, cancellation or addition of some exhibition projects.

Therefore, while carrying out business activities by using the book, users should directly contact the host and organizer of an exhibition and verify relevant information, and take responsibility for any consequences that may occur. The Editorial Board will no longer make further explanations and updates for the book this year.

IV Download and Search

The book is made available for both printed version and the electronic version, and also open to online real-time searching.

The download webpage will be launched on Tradeinvest Web (www.tradeinvest.cn), readers can also go to the CCPIT official website (www.ccpit.org) and download from the "publications" section.

For further inquiries, please contact the CCPIT Information Center (China Trade Promotion Information Technology Co., Ltd.). Telephone: 010-82217960, 88075029.
